design technologies

Dall’integrazione del più elegante artigianato orafo e dalle più recenti tecnologie del mondo dell’abitare hanno origine le pulsantiere OHM.
Il design ricercato che le contraddistingue e i preziosi materiali delle loro finiture contribuiscono a rendere questi prodotti delle vere opere d’arte orafa.

The OHM keypads panels originate from the integration of the most elegant goldsmith craftsmanship and the latest technologies in the world of living.
The refined design that distinguishes them and the precious materials of their finishes contribute to making these products true works of goldsmith art.

OHM
KEYPADS

an integrated system

La duratura collaborazione con i più importanti studi di architettura e la continua ricerca tecnologica fanno si che le pulsantiere OHM si possano facilmente contestualizzare in ogni ambiente residenziale, nell'hotellerie di lusso e anche negli yachts.

The long-lasting collaboration with the most important architectural firms and the continuous technological research mean that our keypads can easily be contextualized in any residential environment, in luxury hotels and even in yachts.

Il sistema coordinato di OHM si compone di:

_ Pulsantiere e comandi per la gestione di illuminazioni e motorizzazioni

_ Cover per componenti elettronici di terze parti come prese di corrente e USB, touch panel, sensori di temperatura, sistemi di aspirazione centralizzati, lettori di impronta per controllo accessi

_ Postazioni di accesso esterne, con integrazione di kit audio/video di terze parti

The OHM coordinated system consists of:

_ Push-button panels and controls for lighting and motorization management

_ Covers for third-party electroic components such as power and USB sockets, touch panels, temperature sensors, centralized vacuum systems, fingerprint readers for access control

_ External access stations, with integration of third-party audio / video kits

OHM
KEYPADS

crafted with love in Italy

Le pulsantiere OHM riprendono la sapiente abilità dell'artigianato orafo fiorentino che pone le sue radici nel XII e XIII secolo.
Ogni prodotto è il frutto di un'attenta ricerca delle più storiche tecniche artistiche, come la cesellatura e la fusione a cera persa, che rendono questi piccoli ma preziosi elementi di arredo dei veri e propri gioielli. Le innumerevoli finiture consentono infinite personalizzazioni per integrarsi perfettamente ai contesti di arredo più sofisticati.

The OHM keypads recall the skilful skill of Florentine goldsmith craftsmanship that has its roots in the 12th and 13th centuries.
Each product is the result of careful research into the most historic artistic techniques, such as chiselling and lost wax casting, which make these small but precious pieces of furniture real jewels. The countless finishes allow infinite customizations to integrate perfectly with the most sophisticated furnishing contexts.

OHM
KEYPADS

the **EXTRA**ordinary collection

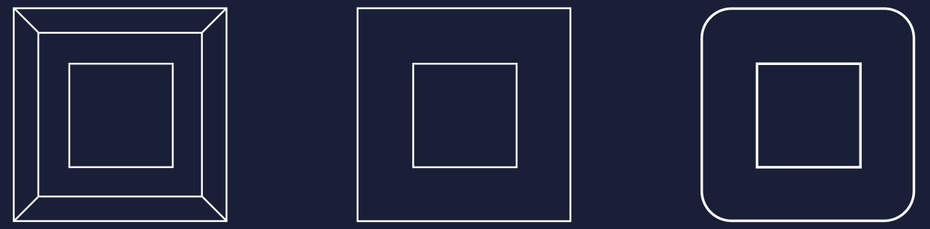

Le pulsantiere OHM sono totalmente personalizzabili nelle forme, nelle finiture e anche nelle loro funzionalità tecnologiche. Dotate di scheda con tasti elettronici risultano integrabili in tutti i sistemi di automazione domestica.
Compatibili con tutte le scatole da incasso standard.

OHM Keypads, are fully customisable in shapes, finishes and also in their technological functionality. Equipped with a card with electronic keys can be integrated into all home automation systems.
Compatible with all the standard wall boxes.

Realizzato a mano in Italia - Crafted in Italy

INDICAZIONI PER L'INSTALLAZIONE
Il collegamento dei pulsanti (e LED) avviene tramite connettori a vite estraibili tipo Euroblock passo 3,5mm
Il prodotto è realizzato per essere impiegato in ambienti interni e asciutti Per l'utilizzo all'aperto, è disponibile una versione con tasti elettromeccanici IP55.
E' possibile l'impiego in impianti tradizionali mediante utilizzo di relè passo-passo con bobina a 24V

MANUTENZIONE E PULIZIA
Per la pulizia e la manutenzione delle pulsantiere e delle cornici, si raccomanda l'utilizzo di un panno asciutto di microfibra soffice.
Non impiegare prodotti per la pulizia contenenti componenti abrasive o corrosive.
Qualsiasi oggetto o attrezzo che venga in contatto con la parte frontale delle tastiere può verosimilmente danneggiare la finitura esterna

SCHEDA ELETTRONICA
Scheda elettronica realizzata in materiale FR4
Configurazione contatti: pulsanti NA (normalmente aperti)
Tipologia pulsanti: elettronici di tipo Tact Switch
Max tensione supportata: 30Vdc
Max corrente supportata: 30mA
Versione LED: Low current LED 2÷5mA @ 3÷5Vdc

Ogni singolo esemplare, per il fatto che è stato realizzato a mano utilizzando prodotti naturali, potrebbe presentare lievi differenze.
Tali dissomiglianze non devono essere considerate difettosità , bensì caratteristiche inconfondibili della produzione artigianale che pongono in evidenza in modo specifico la natura unica ed esclusiva di ciascun manufatto.

PRODUCT INSTALLATION
The wiring of the keys (and LED) is performed through removable screw connectors Euroblock type, pitch 3,5 mm
This product is intended for internal and dry enviroments applications
For outdoor applications, it's available the IP55 version provided with electromechanical keys
This product can be installed in older systems using step by step relays with 24V coil

CLEANING AND MAINTENANCE
Under no circumstances use abrasive or corrosive cleaning products to maintain the faceplates. Only dry cleaning with a soft microfibre cloth is recommended. As the equipment is protected by a varnish, these precautions are necessary to en-sure the products retain the qualities of their original finish.
Any foreign body or tool that comes into contact with the faceplate will likely cause damage to the plate finish.

ELECTRONIC BOARD
Electronic board manufactured using FR4 material
Contacts configuration: push buttons NOC (normally opened contact)
Push Buttons type: electronics Tact Switch type
Max supported voltage: 30Vdc
Max supported current: 30mA
LED version: Low current LED 2÷5mA @ 3÷5Vdc

Each item we manufacture has been carefully handcrafted. Nevertheless, due to this fact and to the natural origin of the materials employed, if compared, the same product might look slightly different from another. This condition is not to be considered as a defectiveness, on the contrary it is a clear example of the level of craftmanship and exclusivity of our range of products.
